Determining your Shortage or Surplus

- Any shortage in your escrow account is usually caused by one the following items:

 An increase, if any, in what was paid for insurance and/or taxes from your escrow account.
- A projected increase in taxes for the upcoming year.
 The number of months elapsed from the time of these disbursements to the new payment effective date.

Shortages are divided evenly of the next twelve months. To reduce the increase in your monthly payment, the shortage can be paid either partially or in full.

A surplus in your escrow account is usually caused by one the following items:

- The insurance/taxes paid during the past year were lower than projected.
 A refund was received from the taxing authority or insurance carrier.
 Additional funds were applied to your escrow account.

If your surplus is \$50.00 or greater and your loan was contractually current at the time when the analysis was run or calculated, a check will be sent to you. If your surplus is less than \$50.00, the funds will be retained in your escrow account.
